# Solution Salon Prompts

Prompt 1	Jessica	Strategic planning: how are you all allocating resources to prepare for the future of your social enterprises? From a strategic planning perspective, are you all handling these items internally or are you hiring consultants to help you create a three year strategic plan?
Prompt 2	Ian	Currently I am overwhelmed about keeping the earned income ship afloat to the neglect of the new cohort model and the social programming. Have started back with resource meetings but wondering if there is an entirely different approach rather than the cohort approach. Or more acutely, what is the #1 thing to DO, to start iterating on instead of being stuck in planning phase.
Prompt 3	Jennifer	Currently I am challenged by the task of pivoting Community Kitchen Pittsburgh's training and staffing to respond to the bottom falling out of our industry. We have ideas and have started to make some changes but it's really an entirely new model.
Prompt 4	Gary	How to effectively deal with a potential "fight" with investors and terminated employees over ownership of Recovery Park intellectual property (IP) and development.
