

Breakout #1

Break into small groups and discuss some of the policies that you reflected upon:

- Share an example of a related policy or practice that's working well for your ESE?
- What is a policy that you think you should add, refine or change based on something said today?

Breakout #2

In your breakout group, discuss:

- 1) What practices and/or tools are you using? What is working well?
- 2) What is an ongoing challenge for you?
